About the Event

This interactive event will begin with a keynote address by Diarmuid O'Murchu. Diarmuid is a member of the Sacred Heart Missionary Order and a graduate of Trinity College Dublin, Ireland. He is a social psychologist most of whose working life has been in social ministry.

The day will include explorations and discussion in small groups covering political, ecological, psychological, and spiritual aspects, where we will explore both the personal and societal dimensions of these various aspects.

In the afternoon **Professor Lisa Isherwood** will give a presentation on earth flourishing. Following this there will be time for personal reflection with guiding questions, using the wonderful resources of the **Cosmic Garden** and **Labyrinth** within the University grounds.

The day will close by looking at what we need to do as individuals and communities to promote human flourishing for all.

Tea and coffee will be provided throughout the day, please bring your own lunch.

Although this day is a stand-alone event it forms part of a wider programme at Winchester based on spiritually inspired training offered by **Spirit of Peace**.
